## Six Weeks-Professional Spa Treatments

### Client's Skin

This client had normal skin, moles around cheek area/eye area, minor hormonal breakouts, small pores in the nose area and some hyperpigmentation along the jaw and cheeks.

### Treatment Plan

- > Remove any makeup from eyes and lips with three 2x2s + First Cleanse with Bioline Hydra Milk Cleanser to address dry areas & Remove with hot towel
- > Second cleanse with biolone pure gel cleanse to address any impurities + Remove cleanser with either a hot towel or an Ultrasonic skin scrubber to extract and exfoliate + High frequency to eliminate bacteria from extractions.
- > Apply aquaphor around sides of lips, noses and eyes for protection & Use two 2x2s to apply chemical peel product to deeply exfoliate the skin and focus on the hyperpigmentation on the jaw and cheeks.
- > Neutralize the chemical peel after forty seconds, neutralize once more and then wipe off Neutralizer
- > Apply either a hydrating mask or brightening mask & begin hand and arm massage
- > Add ALOE over the mask, ADD GAUZE AND BEGIN GALVANIC Positive (Iontophoresis) to push these hydrating products into the skin
- > Remove excess aloe and mask with a hot towel + add toner + work in a multi active serum for a hydrating and glowing effect
- > Finish by adding Eye cream to contours of the eyes + Aqua moisturizer + spf + aquaphor on lips
